

<b><u>WHERE TO BUY CA NATIVE PLANTS AND SEEDS</u></b>		
<b><u>NURSERY</u></b>	<b><u>LOCATION</u></b>	<b><u>ADDITIONAL INFO</u></b>
Intermountain Nursery	Prather	A famous local CA native nursery that grows many of their own natives from local stock.
Thicket & Vine Nursery	Coarsegold	Local boy opens mostly-native nursery right in town. Lots of plants that work for us.
Mountain Valley Growers	<a href="http://mountainvalleygrowers.com">mountainvalleygrowers.com</a>	Great prices on small native sages of many types
Annie's Annuals	<a href="http://anniesannuals.com">anniesannuals.com</a>	Excellent business with some of the plants we discussed and alot more natives. Be careful -- deer like a lot of them. And they are young and tender -- wait till spring to plant them.
Las Pilitas	<a href="http://www.laspilitas.com">www.laspilitas.com</a>	Creme de la creme. The first and best. Extremely knowledgeable staff.
	Santa Margarita	
Other Local Nurseries	Fresno, Oakhurst, Mariposa	You might find a Cleveland Sage or Deer Grass. Do not believe staff when they tell you things, though. Most are not knowledgeable about CA natives and especially don't understand the special needs of YLP re: deer etc.
East Bay Wilds	Oakland	Call first. Availability list available online.
Theodore Payne Foundation	Sun Valley, Los Angeles	One of the best in the state. Online availability list. No mail order for plants EXCEPT for seed: <u>great source of wildflower and other CA native seeds.</u>
Larner Seeds	Bolinas	Online source for CA native plant <u>seeds.</u>
